

For a more accurate measurement of your lung function, we would like you to be off of the medications listed below prior to your pulmonary function test.

Please **DO NOT** take the following medications **4 HOURS** prior to testing:

INHALERS: Albuterol, Alupent, Brethaire, Combivent, Maxair, Pro Air, Proventil, Tornalate, Ventolin, Xopenex

TABLETS: Albuterol, Alupent, Brethine, Proventil, Volmax

Please **DO NOT** take the following inhalers **24 HOURS** prior to testing:

Advair, Alvesco, Asmanex, Arnuity, Breo, Dulera, Flovent, Pulmicort, Qvar, Serevent, Symbicort

If you have acute symptoms and need to take any of the medications listed above, please take them. DO NOT put yourself at risk. Please notify us at the time of your appointment if you did take any of the medications above.
